## DETAILED ACTION

### QUAYLE

This application is in condition for allowance except for the following formal matters:

#### *Claim Objections*

Claim 1, page 10, line 19, "third" should correctly be --second--, since no "second transistor" recited in the claim. And likewise for **claim 11**.

Claim 6, page 13, line 9, "bais" should correctly be --bias--.

Claim 14, page, 17, lines 3-5, "a power amplification circuit having an output terminal for receiving a high frequency signal as an input signal and outputting a signal according to the input signal;" **should be read as -- a power amplification circuit having input and output terminals, the input terminal for receiving a high frequency signal as an input signal and outputting a signal according to the input signal;--** since the current claimed limitation appears to indicate that "an output terminal is receiving a high frequency signal."

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

***Allowable Subject Matter***

Claims 1-16 are allowed.

Claims 1-16 call for, among others, a capacitive element (C3) having the function and connection as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
